EXPERIENCE

VP Of Engineering
Klar

12/2021
Tallinn, Estonia

Klar is the fastest growing and largest D2C startup in Europe that is disrupting the home improvement industry by making it accessible and affordable to everyone.

- Building an entire backbone of the e-commerce site using Ruby on Rails, bundled with GraphQL. Including connectors to MRP / ERP / Finance
- Occasional development in NextJS / React
- Designed & responsible for the infrastructure, main keywords being GitLab CI/CD, Kubernetes, EKS, AWS LB

Software Engineer
Easypark

03/2021 - 11/2021
Tallinn, Estonia

Easypark is delivering convenient, effective and cost-efficient parking experiences by innovative services through a lean and scalable platform and organisation.

- Worked in NBA/Marketing unit, mainly integrating Braze into customer journeys to enhance retention, using Java/Kotlin as a main programming language.

Ruby on Rails Developer
Estonian Internet Foundation

10/2019 - 03/2021
Tallinn, Estonia

Estonian Internet Foundation handles the management of Estonia's top-level domain and its sub-domains.

- Complex front- and backend development based on Ruby on Rails for .ee ccTLD registry (domain registrations / renewals / DNSSEC compliance checks)

Ruby on Rails Developer
Tallinn University of Technology

03/2017 - 12/2019
Tallinn, Estonia

- Development of hands-on cyber e-learning platform using Ruby on Rails (in collaboration with Rangeforce)
- Building anti-plagiarism detection / auto-grading software for teachers
- Creating LTI compliant modules for Moodle

EDUCATION

IT Systems Development
Estonian Information Technology College

09/2016

SUMMARY

Ruby on Rails developer with over seven years of experience in building robust web applications.

Skilled in both GraphQL and RESTful services, having a strong background in diverse development environments, including anti-plagiarism software for academic institutions, marketing-related development, domain registry, and e-commerce platforms.

Love thinking outside the box and delivering cutting-edge solutions that enhance user experience and operational efficiency.
